

11:00 – 12:40

Session 2: Blood – endothelial cell interactions

Chair: Markus Sperandio, München

supported by

SFB914 "Trafficking
of Immune Cells in
Inflammation, Devel-
opment and Disease"

11:00 – 11:20

SS6

The role of the guanine nucleotide exchange factor P-Rex in integrin activation and leukocyte recruitment

Alexander Zarbock, Münster

11:20 – 11:40

SS7

Coronin 1A controls trafficking of polymorphonuclear neutrophils in innate immunity

Barbara Walzog, München

11:40 – 12:00

SS8

Sphingosine-1-phosphate in cardiovascular physiology and disease

Bodo Levkau, Essen

12:00 – 12:20

SS9

LFA-1-mediated T-cell adhesion

Melanie Laschinger, München

12:20 – 12:40

SS10

Rhythmic leukocyte trafficking: Implications for health and disease

Christoph Scheiermann, New York, United States
